

MEAT FILM

Eco-friendly & Economical replacement
for PVC cling film

WRAPitTM
MEAT FILM

- Meets food contact regulations of EU directives 2002/72/EEC and IS:10146-1982
- Migration free WRAP it™ Meat film does not contain any plasticizers or chlorine content.
- 100% recyclable hence eco-friendly
- Excellent barrier properties helps to keep food fresh, hygienic and odor free
- Wrinkle free film with good cling properties
- Microwave safe
- Reduces 40 % material consumption as compared to conventional packaging film due to lower density and excellent stretchability
- Crystal clear transparency
- Excellent mechanical properties suitable for automated and manual packaging and for high speed in-line automatic wrapping machines

Properties

| | | |
|--|----|--|
| ■ Tensile Strength | MD | 20-25 MPa |
| | CD | 10-12 MPa |
| ■ Elongation | MD | 150-200 % |
| | CD | 350-400 % |
| ■ Permeability (OTR) | | 35000 cm ³ /m ² /d |
| ■ WVTR | | 115 g/m ² / d |
| ■ Stickiness | | 0.85 N/cm ² |
| ■ Food Contact for Plastic (2002/72/EEC) | | Less than 10 mg/dm ² (3% acetic acid) |
| | | Less than 10 mg/dm ² (Sunflower oil) |

Specifications

- Width: 10" / 12" / 14" / 16" / 18" / 20"
- Length: 5000' / 1500 m
- Thickness 8-15 μ
- Core ID: 2" / 3" or as per requirements

The above are standard specifications that are available for ex-stock material.

Please write to us, if you require specific size and properties. Colored films will be available on request.
