

LIBRA AT HOTELYMPIA

Libra To Introduce Two New Themes At Hotelympia

Since 1972, British homewares brand Libra has been designing stylish and unique furniture and interiors collections. Renowned for its statement designs and extensive collection of unique homewares, the brand's ever-evolving portfolio is curated by an expert team using pieces sourced and commissioned from around the globe.

At this year's **Hotelympia** (5-8th March), Libra will be introducing two collections – Halcyon and Gatsby – as well as new additions to their existing portfolio.

Drawing inspiration from classic Art Deco style, Halcyon features beautifully detailed patterns and luxury finishes, to create a look that pays a noticeable nod to the 1920s. Sleek, statement furniture and shimmering gold accessories work together in this range to create a look that is nothing less than true decadence.

The Gatsby collection within the Halcyon theme showcases contrasting monochromatic shades with sleek silver lines. Think lavish materials, shiny surfaces and eye-catching designs influenced by the Art Deco period.

For the first time this year, Libra will also be loaning a number of homewares and accessories for the Ultimate Dining Experience at Hotelympia – a space designed to offer exhibitors an oasis of calm in the middle of the exhibition. Drinks are served accompanied by well-chosen music, creating a dining experience that is every bit as relaxing as it is indulgent.

Visit Libra at stand 2740 to view the collections first-hand.
